ECONOMIC CAPABILITIES OF THE USSR TO WAGE WAR

Economic Investigation Division,  
South Manchuria Railway Company

1 Mar 1942

TABLE OF CONTENTS

Preface	pp
I. Hypothesis	1
II. Effect of Loss of Territory West of the Hypothetical Line [of German Advance into USSR] upon the Economy East of the Line	14
III. Objectives of Economic Reorganization [i.e., Dispersal of Industry]	21
IV. Problems Confronting Economic Reorganization	37
a. Removal of Factories	43
b. Labor	51
c. Transportation	56
d. Trade	77
V. Results of Economic Reorganization	93
VI. Number of Persons USSR is Capable of Supplying with Necessaries of Life	104
VII. Capabilities of the Munitions Industries to Supply Ordnance	111
IX. Effect of Loss of Area West of the Hypothetical Line upon Eastern USSR	131

X.	Soviet Economy East of the Hypothetical Line In Case of Loss of Eastern USSR	137
Table	1. Area Lost to Germany	144
	2. Distribution of Population Near the Hypothetical Line	146
	3. Production of Major Soviet Industries, by Regions	150
	4. Density of Production East of the Hypothetical Line	152
	5. 1939 Estimated Industrial Production of Entire USSR and of Area East of the Hypothetical Line	154
	6. Freight Transportation Between East and West of the Line	156
	7. Deposits of Important Resources (Coal, iron, bauxite)	157
	8. Objectives and Results of Economic Reorganization East of the Hypothetical Line	159
	9. Balance Between Supply and Demand in the Steel Stock East of the Hypothetical Line	165
	10. Steel Stock Allocated to the Munitions Industry and the Amount the Industry Can Consume	178
	11. Capacity of Ordnance Production in the USSR	180
	12. Replenishment Capacity of Ordnance in Spring 1942	182
	13. Amount of Essential Raw Materials Required to Manufacture Ordnance and Ammunition to Supply One Army Division for One Year	184
	14. Soviet Ordnance Production Capacity in Spring 1942	187
	15. Machine Gun Factories	189
	16. Gun Factories	194
	17. Ammunition Factories	199

TABLES OF CONTENT

	PP
I. Power	
1. Power Plants in East Siberian Cities	2
2. Power Plants Constructed or Under Construction During 1929-1931	6
3. Electric Power Balance in Eastern Siberia	8
II. Industry	
1. Major State-Operated Enterprises in Eastern Siberia (Jan 1932)	10
2. Production Data of Major Industrial Products (1929-1931)	24
3. Hunting and Fishery in Eastern Siberia (1931)	26
4. Forests in Eastern Siberia	30
5. Distribution of Tree Species in State Forests of Eastern Siberia (1931)	30
6. Utilization of State Forest Land in Eastern Siberia (1931)	32
III. Agriculture	
1. Area of Eastern Siberia (May 1931)	34
2. Trust-owned Sovkhozos in Eastern Siberia (Jul 1931)	38
3. Machine-Tractor Stations in Eastern Siberia	42
4. Organization of Kolkhos in Eastern Siberia (1928-1931)	44
5. Seeded Acreage in Eastern Siberia (1928-1931)	46
